*“There is an impact of multiple headwinds on the business in our main market of the USA for Q3 FY23 like disproportionate Freight Cost, Economic Slowdown in the USA.*

*We had to reduce our profit margins to maintain good relations with our marquee customers and continue doing good business with them.*

*More focus on value-added products has helped us to maintain our turnover and helped us in keep our margins at reasonable levels.*

*From November onwards we have seen slow reduction in the freight cost. Once shipping freight normalizes we will see these value-added products will improve our profitability margins.”*

*Freight rates are reduced compare to last year, however, still much higher than pre-covid situation. When it normalises, we will again achieve higher topline as well as bottomline.*
